EDUCATION

Superior Degree on Multiplatform Application Development (C.P.I.F Los Enlaces – Zaragoza, Spain) September 2018 June 2020

Algorithms I & II (Online by Princeton) September 2020 – January 2021

Bachelor of Science (IES Jeronimo Zurita – Zaragoza, Spain) September 2016 June 2018

WORK EXPERIENCE

Developer at Hasten – March 2022 – Present – Barcelona, Spain

IGN Geoplateforme - March 2022 – Present

Java 17 | Microservices | Spring | Mongo | Postgres | H2 | Docker | Kubernetes | Cloud | GitLab | Python

- Now he plays a pivotal role in the Geoplateforme project. His expertise revolves around the world of microservices development maintaining an 90% code coverage in Sonar, demonstrating his commitment to code quality. In this dynamic environment, He skillfully leverages cutting-edge tools like GitLab, Docker, and Kubernetes to streamline deployment and orchestration processes. Beyond his microservices prowess, He is regularly crafting Python scripts, managing API gateways, and delving into various aspects of microservices architecture.

Developer at Deloitte – September 2020 – March 2022 – Zaragoza, Spain

Banco Santander - November 2020 – March 2021

Java 11 | Microservices | SQL | Spring | Angular | UiPath | Mulesoft | Git

- In this role, he is responsible for developing software and applications, resolving technical issues, and collaborating on projects related to the development of APIs and microservices. He also serves as a technical mentor and communicates with global teams worldwide. His versatility and collaboration make him a valuable asset to the organization.

Renfe - March 2021- March 2022

Java 7 | Microservices | Spring Boot | RestFull | Maven | Angular | Jenkins | Docker | Kubernetes

- Vlad is primarily focused on the use of microservices, Java APIs, Docker for deployments. He also plays a role in front-end development using Angular. In addition to his development tasks, Vlad is responsible for resolving technical issues. He faces the challenge of managing significant chaos resulting from the indecisiveness of the end client.

COMPUTING SKILLS

Java 17 | Spring Boot | SpringWeb |
Hibernate | JUnit & Mockito |
Python | Docker | Kubernetes |
SpringCloud | MongoDB | SQL | PL-
SQL

INTERESTS AND ACTIVITIES

Travel | Chess | Climb | Read | Gym |
Alpinism | Rubick Cubes | Bulder |
Geography | Plants | Calisthenics |
